CAREER SUMMARY

I am a results-driven Monitoring, Evaluation, Accountability, and Learning (MEAL) Specialist and Statistician with over 6 years of experience supporting humanitarian and development programmes across Uganda, South Sudan, and Kenya. Skilled in developing MEAL frameworks, monitoring plans, indicator tracking systems, donor reporting tools, and accountability mechanisms across Education, Livelihoods, WASH, Nutrition, Protection, Gender, and Youth programmes. Experienced in quantitative and qualitative data analysis, data quality assurance, dashboard development, and translating data into actionable insights for adaptive management and strategic decision-making. Proficient in Kobo Toolbox, SurveyCTO, ODK, SPSS, STATA, R, Power BI, GIS, and Advanced Excel. Strong track record supporting programme teams, consortiums, NGOs, and government partners in evaluations, assessments, performance monitoring, and evidence-based reporting

CORE COMPETENCES

- | | | |
|---|--|---|
| • MEAL Framework Development | • Adaptive Management and Evidence-Based Decision Making | • Accountability and Feedback Mechanisms |
| • Monitoring and Evaluation Planning | • Database Development and Data Management | • Capacity Building and Technical Support |
| • Results Based Management (RBM) | • Statistical Analysis using SPSS, STATA, R and Excel | • Baseline, Midline, Endline and Impact Evaluations |
| • Indicator Tracking and Performance Monitoring | • Dashboard Development and Data Visualization | • Donor Reporting and Learning Documentation |
| • Data Analysis and Interpretation | | |
| • Quantitative and Qualitative Research | | |

PROFESSIONAL EXPERIENCE

January 2026-present | Research, Monitoring and Evaluation and Learning Specialist | Kampala

Evidence and Insights Group International

P.BOX 159790, Nakawa-Kampala

In this role, I lead and support Monitoring, Evaluation, Accountability, Research and Learning (MEARL) functions across multiple client projects implemented by NGOs, consortiums, and development partners in Uganda and across the East, West, South and Central African Region. I am responsible for developing MEAL frameworks, logical frameworks, monitoring plans, dashboards, and digital data systems, while supporting data analysis, reporting, learning, and evidence-based decision-making for programme improvement and strategic management. Led development and execution of annual operational plans consistently met national quality standards and donor expectations. Below is a key snapshot of my achievements.

- Led development of MEAL frameworks, logical frameworks, indicator tracking tables, and monitoring plans for humanitarian and development projects across multiple sectors.
- Designed and managed digital data collection systems using Kobo Toolbox, ODK, SurveyCTO, and CommCare for evaluations, assessments, and routine monitoring activities.
- Conducted quantitative and qualitative data analysis using SPSS, STATA, R, Power BI, and Excel to generate actionable insights for programme improvement and management decision-making.
- Developed dashboards and data visualization tools to support real-time performance monitoring, donor reporting, and strategic oversight.
- Led data quality assurance processes including data cleaning, validation, triangulation, and consistency checks to strengthen reliability and integrity of programme data.
- Supported implementation of baseline studies, midterm reviews, endline evaluations, impact assessments, and learning studies across Education, Livelihoods, WASH, Nutrition, Protection, and Health sectors.

- Strengthened capacity of programme teams, enumerators, and partners in monitoring and evaluation systems, digital data collection, data analysis, and reporting.
- Facilitated evidence-based decision-making by translating complex datasets into clear findings, recommendations, and strategic insights for clients and programme teams.

January 2025-Dec 2025|M&E and Data Consultant | Citizen Generated Data systems project|Remote

Tax Justice Network Africa

P.O Box:25112 – 00100|Nairobi

In this role, I supported data management, monitoring, evaluation, and evidence generation activities to strengthen programme implementation and decision-making. I was responsible for collecting, cleaning, analysing, and visualizing data, developing reporting and dashboard systems, and supporting research, learning, and donor reporting processes. I was also responsible for providing technical support to programme teams and partners on data utilization, monitoring systems, and evidence-based planning.

Key Achievements

- Strengthened data management and monitoring systems, improving data accessibility, reporting efficiency, and evidence-based programme implementation.
- Developed and maintained integrated datasets, dashboards, and reporting tools that enhanced real-time performance tracking and strategic decision-making.
- Managed collection, cleaning, validation, and analysis of large datasets from multiple sources to support high-quality programme monitoring and reporting.
- Supported monitoring and evaluation processes to ensure compliance with donor requirements, reporting standards, and organizational accountability frameworks.
- Produced analytical reports, data visualizations, and performance summaries that informed programme reviews, planning, and management decisions.
- Improved data quality and reliability through routine data verification, consistency checks, and strengthening of reporting systems and processes.
- Contributed to research, policy analysis, and evidence generation initiatives that supported organizational learning and programme improvement.

Dec 2023-August 2025 |Research and Evaluation Data Analyst

MAARIFA Consult

Namugongo-Kampala

In this role, I supported monitoring, evaluation, research, and learning activities across humanitarian and development projects implemented by NGOs, consortiums, and government institutions. I was responsible for data management, digital data collection systems, analysis, reporting, dashboard development, and generation of evidence to support programme monitoring, donor reporting, and strategic decision-making. Below is a snapshot of key achievements;

- Supported implementation of monitoring, evaluation, research, and learning activities across humanitarian and development programmes.
- Developed digital data collection tools, indicator tracking frameworks, and survey systems using Kobo Toolbox, ODK, and SurveyCTO.
- Conducted quantitative and qualitative data analysis using SPSS, STATA, R, Excel, and Power BI to generate programme insights and support decision-making.
- Supported baseline studies, endline evaluations, impact assessments, and market assessments across multiple sectors.
- Led data cleaning, validation, triangulation, and interpretation processes to improve quality and reliability of project data.
- Developed dashboards and data visualization products for programme monitoring, donor reporting, and performance tracking.
- Conducted routine data quality checks and strengthened compliance with data management and reporting standards.
- Built capacity of field teams and programme staff in digital data collection, monitoring systems, and data quality management.

P.O Box:25112 – 00100|Nairobi

In this role, I supported the strengthening of district-level data management, monitoring, and reporting systems to improve evidence-based planning and decision-making. I was responsible for supporting data collection, analysis, visualization, reporting, and capacity strengthening of district stakeholders and programme teams to enhance data quality, utilization, and performance monitoring across targeted districts.

key achievements were:

- Strengthened district data management and reporting systems to improve data quality, accessibility, and utilization for decision-making.
- Developed monitoring tools, dashboards, and reporting templates to support programme tracking and performance monitoring.
- Conducted data cleaning, validation, analysis, and visualization to generate actionable insights for programme and district leadership.
- Supported DQAs, routine monitoring and evaluation activities including data quality assessments, reporting reviews, and performance tracking.
- Built capacity of district teams and stakeholders in data management, analysis, reporting, and evidence utilization.
- Produced analytical reports, presentations, and learning products to support programme review and strategic planning.
- Supported evidence generation and policy review processes to strengthen district planning and accountability systems

SELECTED MONITORING, EVALUATION, RESEARCH, AND LEARNING ASSIGNMENTS

- Research and Evaluation Expert | Endline Evaluation of the Mental Health and Psychosocial Support (MHPSS) Programme – World Vision Uganda
- Research and Evaluation Expert | Local Market Systems Analysis for the Uganda Refugee Resilience Initiative (URRI) – DCA Consortium
- Research and Evaluation Expert | Endline Evaluation of the APEAL IV Refugee Protection Project – CARE International Consortium
- Research and Evaluation Expert | Midterm Evaluation of the “Boosting Climate Sensitive Local Food Systems” Project – Welthungerhilfe (WHH), South Sudan
- Research and Evaluation Expert | Endline Evaluation of the Uganda Malaria Elimination Project – World Vision Uganda
- Data Analyst | Baseline Survey for the USWIFI Project – World Vision Uganda
- Data Analyst | Endline Evaluation of the HEMPEL Remedial Learning Project – Save the Children
- Data Analyst | Baseline Study for Oxfam’s Irish Aid Civil Society Programme in Karamoja – Oxfam Uganda
- Data Analyst | Baseline Survey for the Gender Equitable Nutrition in Tanzania and Uganda (GENTU) Project – Action Against Hunger
- Data Analyst | Endline Evaluation of the EduQUP Project – EDUKANS

EDUCATION AND OTHER QUALIFICATIONS

Period	Institution	Certification
2024-2027	Makerere University, Uganda	Master of Statistics
2018-2021	Makerere University, Uganda	Bachelors Degree In Statistics
